

Two Rivers survey on a Pump Track for Foley Road

At a meeting in 2019, Young people told Councillors how the Town was rapidly expanding with more young families moving in but felt they had been forgotten when it came to recreation facilities.

The young people put forward suggestions for consideration, one being the fenced play area on Foley Road. This they felt, would be an ideal location for a pump track for non-motorised wheels, which they would help design and build with adult supervision, and with support from Newent Youth Action Group and the Newent Neighbourhood Policing Team.

The young people feel that this play area would be safe and ideally suited for younger children.

Newent Youth Action Group are currently liaising, planning and designing a pump track for teens and above in a different location with support from Councillors and the Neighbourhood Policing Team.

As residents in and around Foley Road we are asking for you to support us by completing the question on the survey.

Thank you
Newent Youth Action Group

1. Would you be happy to see a pump track for use by the young people on the play area on Foley Road?

Yes	
No	

2. If No, can you say what your concerns are?

3. If Yes, what would your upper age limit be?
