

The Working Group recently met with Andrew Middlecote, regarding the gap in the paving following the removal of the dead tree stump, that is now in need of some restoration. The original paving stones are not easily available and it may be that pavers might solve the problem.

> As mentioned at Monday's meeting (12.07.2021), it may be possible to re install the round seat, with a large potted plant in the centre.

> The Rotary Club have generously offered a three seater wooden bench that would not need to be permanently secured and can be moved to different parts of the square.

> Andy Offord has agreed to look at what can be achieved in the Market Square, by softening the look with more planting(eg pots with shrubs like Japanese Acers).

> We would like Council to formally accept the offer of a seat from Rotary and Mr Offord's generous offer and write accordingly.
