

## Item 13 Newent floral display

Can the Council approve and agree the planting of 3 containers with sustainable plants to provide year-round colour and interest.

Background.

To improve sustainability and hopefully reduce time/resource and cost over the years.

3 planters are the NTC oblong planters (2 in front of Manna and 1 in front of Fish and Chip Shop)

To plant with a hardy perennial scheme provided by the NEST nursery to include:

Rosanne Geranium X1

Laminam x 1

Hechura Dark purple X 2

Salvia Hot X 1

Grass - carex X 1

Mexican Fleabane X 2

Tete a tete daffs

Violas in Winter (other small number of bedding plants seasonally)

Planting to be undertaken by volunteers end of October to ensure plants can establish before Winter.

There has been a donation of bulbs already.

Cost - £100 per pot. There are some funds already donated and an anonymous local business donation has been agreed to make up to £300 in total.

Best Wishes

Juli

### **Proposal**

To Approve and agree to the planting of 3 x containers with sustainable plants to provide year-round colour up to the cost of £300.00
